SUBJECT: ADA ASSISTANT ASSIGNMENT: REESE, JOHNNY BN 3382

As ADA prisoners in need of significant daily ADA assistance our cellmate Resse, Johnny BN3382, has faithfully been at hand 24/7, be it changing our bed linen, retrieving out of reach items, assisting in the night to various needs, pushing us to appointments, and diligently assuaging our plight in a difficult environment for the disabled and elderly.

Although there are ADA Assistants within the unit they are not always available and never during the night.

Since Resse is on the eligibility list for ADA Assistant and our need of high level assistance, we pray Resse may be assigned ADA Assistant.

This request was discussed with senior staff C/O S. Pano, who is aware of Resse's level of assistance and has no objection to our request.
