

Even though images are not part of my religiou, I strongly believe that sometimes symbols can send a messege stronger than words. I am registered in the State of Massachusetts as a member of the clergy - regardles of my incarceration. - In our CHURCH we don't have a traditional doctrine, we only believe in that which is right. We also believe that each individual has the privilege and responsibility to determine what is right as long as it does not infringe on the rights of others. We do not stand between you and your GOD and we are active advocates of the First Amendment of The United States of America.

God has touched my heart reveiling to me a great messege; "When you over extend the punishment of individuals in prison for political reasons, GOD will turn on you and eventually eternal punishment is being written on your name. When people in power abuse and look at the prison as a bussnïss enterprise, sooner or later you will have to pay the piper, what you have been shoveling onto other human beings will return back to you, it is like spitting against the wind, it is called KARMA".

Unbearable cold cell doors, suffocating chains waiting for my DEATH, bleeding on papers and dying constitute a cruel punishment. They almost sucked the breath out of me.

Turture is a psychological punishment violating human rights principles in a civilized society. Writing the stories on blood, Massachusetts Justice For All.

U.S.A. - Massachusetts Law & Order, let the winds of change blow all around you and follow your lifeline wherever it may lead. Justice For All, those who are making judgments and abusing of power, then they will be judged by history and other superior beings. Eliminating the bars, I am a human being just like you.

Justice for all, while God takes note of every sparrow that falls...
