Re: Allied Media: Nation Inside.  
Communication strategies  
Against mass incarceration.  
Human Rights Issues.

Salubrious.

1.) What are the most pressing issues that the focus should be on?

(A) Political & Legal: Assistance to effectuate change:

(B) We need people in society to become involved & help in (1) presenting letter campaigns to law makers to change rules of the prison & laws. (2) We need skilful attorneys & paralegals to help litigate class issues statewide & nationally. Issues like human rights torture claims, long term segregation / administrative confinement.

— over —

1.0

2.) How can organizations working to end MASS INCARCERATION do better?

(A) Two things most importantly and they have to complement each other. (1) put pressure on Human Rights Signatories to address H.R.'s issues in U.S. prisons. (2) find people who believe in prison reform and support them as candidates in elections. (3) How can we truly change the system, if pro-prison minded people are the only ones running & getting elected to offices. (4) we need to change the system inside/out. which includes the prisoners and the politicians. (5) filing H.R. (Human Rights) & civil suits on MASS INCARCERATION (mass incar.)

3.) What support do you need that you are not currently getting?

(A) AS A WRITER, AND PRO SE LITIGATOR / PRO SE JAIL HOUSE LAWYER IN A SUPERMAX PRISON WITH BAD penmanship. I need assistance typing up cogent / legible legal documents. As a lot of times the courts give bad rulings do to the fact they don't read bad handwriting and won't waste their time reading the plaintiff

— documents. Taking everything the def-  
-endant prison officials say as true & correct.

Also, I can possibly get some of my stories,  
essays and social critiques etc published.  
Getting assistance will mean success for me.  
make my voice more voluminous.

4.) Changes to the LAW that need to be  
advocated?

(A) Recall or modifications to  
the PLRA (Prisoners Litigation Reform Act).  
Specifically sections that prevent prisoners  
from being able to be compensated when  
Constitutional Violations have been proven &  
won! unless you can also show an actual  
injury. See LAW, title 42 U.S.C. § 1997e(e).

(B) Also, Human Rights standards to be univer-  
-sally applicable to U.S. prisoners.

As of right now, the U.S. Const. standard  
is applied, and that standard has been diluted  
so much that torture and other inhumane  
activity/officials do is accepted, while the  
U.S. clamor around the world's Human Rights  
Violation standards that themselves do not

— over —

— Where to When it Come to U.S. Prisoners.

5.) How CAN WE USE MEDIA TO ADVANCE THESE CAUSES?

(A) Dedicate a site ~~to~~ on the web to Right Prisoners Rights Abuse & Torture. With proof in documents & video. (B) Establish a email/Letter petition, where supporters can log on and put their names on generic email/Letter petition that will go straight to prison officials, governors, politicians, U.N. and others we seek to educate or move.

(C) mass block twitter outputs for (next) sensitive incidents to arouse support and first Amendment action project etc.

(D) expose the corruption. site dedicated to expose cover-ups, judicial callusions.

(E) A website dedicated to Whistleblowing for correctional staff. with some kind of tangible incentive so they will come forth with information on cover-ups, corrupt-ions & abuse/torture etc.

To. Allied media, post Amc-2012.  
6-11-2012.

P. 5

(F) Investigative Journalism: News media  
to investigate prison torture/abuse just  
like they do all the ~~other~~  
stories. We need reporters, professional/LA  
reporters to interview guards, etc. especially  
ex-employees to get the truth and data on  
cover ups and corruption, abuse etc.

Lastly, I would like to express my appreci-  
-ation that you are requesting our ~~own~~ ~~opinio~~  
opinions, as oppose to treating us like animals  
who need others to PETA us? and that you have  
the compassion to extend your hand to help  
people, much of society and family have lost  
away.  
Asante SANA.

Sincerely,

Prince / Tum RA / Uruo / Utanaki
