- CONVICTS MEET WITH LEGISLATORS / PRISON ADMINISTRATION LEFT OUT OF LOOP

On Friday, October 23, 2015, a group of brave convicts here at ShirleyWorld met with members of The Legislative Harm Reduction and Drug Law Reform Caucus to afford the Caucus presentations on what the convicts portrayed as barriers to rehabilitation and public safety enhancement. A practiced group of nine convicts gave presentations to two state senators and six state representatives as well as a dozen members of the staff of other state representatives. We here at Free Speech Central are proud to let you know that we played a major role in organizing this event, along with the help of several representatives and their staff, and this was done without ever working with the prison administration. As you may remember earlier this year our well cushioned Deputy Denied-Oh wrote The Free Speech Warrior a disciplinary report when he invited the governor, Charlie "Young Nazi" Baker, to come in and meet with a group of prisoners. Well that d-report was dismissed as fast as the concept of rehabilitattion dismissed when The Warrior issued 22 Press Releases to the media seeking to be interviewed about the story. Deputy Denied-Oh, and the rest of the gulag staffers across the system, actually believe they have the power to violate our constitutional rights, but the work of men like the Panel Of Nine who met with the legislators here proves they cannot and that we, the prisoner, can reach out and expose the misconduct that permeates the gulag. Bottom line is: Tough Shit Karen Denied-Oh! We organized the event in spite of your illegal "Direct Order" not to. I remember her words after we gave presentations a couple years ago at a Veteran's Group event. She called me out to the Operations Office, gave me her proven hollow direct order to "cease and desist", and then told me "That will never happen again!", refering to the presentations we gave. Well I got news for you Denied-Oh; THAT JUST HAPPENED! And it happened times twenty! (X20)!!! Free speech is much more powerful than you will ever be. The presentations we gave on the 23rd of October were very powerful and the legislators seemed to get it; that being that the DOC is an organization based on telling lies; lies about "understaffing", lies about "the toughest beat in the state", lies about "family reunification" priorities, lies about "THE MURDER OF JOSHUA MESSIER!" These suits and oxygen wasters are all liars and the lawmakers must take everything they are told by them with a grain of salt. The educated voice of the prisoner as it relates to the "truth" about this failed system MUST be heard. It does not matter to us how much it pisses the guards off or how redfaced the suits get; we must do our job and FORCE change. The brave men here are actively working on Step Two in this process and we will be certain to keep the readers posted.

- DEPUTY DINARDO RIDES INTO SUNSET / BARN DOOR BREAKS AS IT STRIKES ASS

It is official: the Queen of Mean, The Ayatolah of Anger, The Camel Toe Classification Warden, The Mooseknuckle Maiden herself, our beloved Deputy Karen Denied-Oh has left the wilds of ShirleyWorld and moved on to greener pastures at GardnerWorld where she can "dash hopes" and "ruin

dreams" just like she did here. The prison, in all its magnanimousness, threw a "Pizza Party" for the Deputy's departure. Had an array of toppings such as "Anger Anchovies", "Companion Program Pepperoni", "Lifers Block Crumbled Beef", "Mooseknuckle Mozerella", and "Music Program Mushrooms". Our Fine Feathered Leader, Rubber Stamp Wry-On, took her role as "Wellness Committee Coordinator" to the next level when she force-fed Director of Mistreatment, Christine Lurking, several pieces of the Italian pies as she feared she would disappear if she lost anymore weight. Director of Over-Classification J. Paris-Hilton whooped it up like it was 1999! She wore a "Hello Kitty" party hat and popped numerous bottles of Cold Duck and Asti Spumanti in celebration of her nemesis' departure. The Companions up in the Companion Program stole fruit from the dementia patients and made Deputy Denied-Oh a fruit salad offering to "toss her salad" anytime as long as she kept them supplied with Stockholm Kool Aid. Deputy McCan't (who's departure we are trying to confirm as I write) saddled a Belgian Plow Horse for Deputy Denied-Oh to ride off into the sunset on as a standard stallion or fillie could not bare the burden. The folks at free speech central sent a card saying "Don't let the barn door hit you in that wide ass on the way out you draconian dreg!" Good riddance to bad rubbish we say! Now the new rumor is that former IPS superstar and evidence planter Mork Nanu-Nanu is coming here to replace deputy McCan't. The guards are already planning "Midget Wrestling" fundraisers where Sgt. Young-Un, hailing from the Yellow Brick Road, will take on Mork Nanu-Nanu from parts unknown. They will raise money for the "Kiss a Pig, save a woman at Framingham" anti-abuse program. On a sad note the entire staff of oxygen waster at GardnerWorld have been placed on "eyeball watch" once they learned that Deputy Denied-Oh was headed their way!

- C.R.A. PROGRAM SAYS "BAH HUMBUG" / PLANS TO CELEBRATE FESTIVUS

Due to the permanent banning of God from the CRA Program here at ShirleyWorld they plan to "Boycott Christmas", "Prohibit Hanukah" and "Kill Kwanza", by holding their own Seinfeld inspired FESTIVUS celebration. They will tear down the Stripper Pole in the Director's Bedroom and place it in the Hallway of the Voc Ed building. There will be "Feats of Strength" where men will try to bench press the ample caboose of the female counselor on duty. Men will be able to "Bob For French Fries" and "Make Fermented Fruit Egg Nog" under the watchful eye of program mentors. The Programs own George Costanza will wear one of his most foolish hats and sing "I've been dreaming of a Budweiser Festivus", and "Little Suboxone Boy." Gifts will be exchanged but not for good cheer but as a vehicle for INFORMING on your fellow cons. Men will get "Snitch Note Stationary" and "Rat Right Writing Pads" as well as "Pull Up pencils and pens." Live music will be supplied by the official CRA Band "The Recidivism Raconteurs" who will perform "Relapse Within 24 Hours of Release" and "I went from weed to

heroin in Unit E-2", as well as "Tight Pants Counselor Blues." They will bake a Tofu Turkey and serve O'Doules by the keg. Of course the events will be mandatory, like their bullshit propaganda recruitment meetings, and anyone who fails to show up will be issued a d-report. Suboxone strips will be available "on the black market" with a money trail leading back to Ollie North and the Iran Contra deal (that is why the IPS cannot solve the "orange pipeline" dilemma). If the CRA Staff consume enough of the Fermented Fruit Egg Nog they may just end up on that stripper pole like it was a normal Friday night in Leominster or Fitchburg. Pudgy's on old Route 20 or the Lamplighter on Southbridge Street never had talent like this! A-Man-Duh! will share her "legal methdone" with folks and "Smash-Lee" will earn her Springer Beads with a quick flash of those headlights! Should be quite a bash. I won't see you there as I will be celebrating CHRISTMAS in the Chapel like a normal person, and I'll be sober!

- LT. KIM URINE SPOTTED INSIDE PERIMETER FENCE / CONDOMS DISTRIBUTED

As rare as a Yeti or a Texas Democrat are the sightings of the Mistress of Married Men, our own Lt. Kim Urine, inside the perimeter fence. You see after Lt. Urine repeatedly did the "nasty" with School Principal Brian Ho-Hum, and then decided his "hit it and quit it" attitude was not going to fly, she was sent outside the fence as she was stalking Mr. Ho-hum looking for a bit more "education" in the fine art of adultery, had to put it on the record as it looked like Lt. Pee-Pee was going to "Single White Female" him (or maybe "Play Misty For Me" him like he was Clint Eastwood!). Well just the other day we got a rare treat to see good ole Kim posted up at the No. 119 gate. Scowl on her face, shit talking to the Sgt. at the gate, Sgt. Lousy, it seemed as if she never lost a step. The sad fact is that Lt. Urine is all that is wrong with corrections. She daily tortures visitors and guests as they enter the facility. She takes out her anger, her true self-hatred, on all she encounters (except maybe those she is trying to bed - at first). I remember when she took great pride in helping to deny me my earned single cell and sending me to unit A-2. Like all those who know me well know I never draw first blood. It was Lt. Urine who mistook me for one of those other cons, possibly mesmerized by the booty or hypnotized by the poon-tang, but I ain't the one. Her side of the street is dirty - real dirty - and this blog is here to report it. This is a woman who harasses and demeans 80 plus year old women and men who come here to the facility. This is the bitch who stated that "we must find a way to stop these family events" and "I never knew these religious programs to work." Fuck her: pardon my French. Even our Fine Feathered Leader don't know what to do with the detestible human being. Toss her in a truck, stick her in control, banish her to the minimum (just like Lt. Shameless Peckerhead); nothing works. If it was a real business you would just fire her, but oh no, not in the DOC. You are stuck with this lawsuit waiting to happen for life! On the taxpayer's dime. Everyday, all day, on every shift she works, Lt. Urine does all

within her power to dismantle any chance of rehabilitation while making a conscience effort to destroy prisoners lives. She is the poster girl for the Prison Industrial Complex. In an added burden on the taxpayer the H.S.U. used some of their \$98,000,000.00 health care budget to purchase and distribute condoms to all the male employees of the facility as they heard that Lt. Urine is back on the prowl and they fear a demon lovechild from possible unions with Lt. Peckerhead (that child would be a horny dummy), Lt. McHardly (that child would beat handcuffed S&M partners), or CO Scumlafia (that child would demand that the lawns of his secret garden love patches be mowed on all life partners). The scariest child of all would be from a union between Lt. Urine and Sgt. Bitch. This kid would armed rob brothels of their toilet paper and condiments. The H.S.U. has taken a prophylactic measure and stocked up on pennicillim just in case Lt. Urine sticks around.

- LT. MCHARDLY FACING DISCIPLINARY HEARING / ANOTHER BANNER YEAR

Our surces have informed us that one of our long-time blog favorites, Lt. Dick McHardly is facing some serious disciplinary charges. Our own internal "Edward Snowden" is attempting to get us all the facts concerning this dreg of humanity's upcoming charges. Lt. Dick is having another banner year as his record against handcuffed cons is currently 4-2. He is also 3-1 with men over 80 years of age. The supporters of Free Speech Central are watching The Dick closely so that they can report to OIS any further malfeasance on the part of Lt. McHardly (and we all know that a 3-11 shift "McHardly" ever passes without something juicy for us to report!). We have also heard that Lt. Dick will dress up as "Sgt. Charles Graner" of the infamous Abu Ghirab U.S. Military debauche as he is one of Lt. Dick's life heroes: too bad he is doing a decade long stretch in Federal prison, and that's exactly where Lt. McHardly is headed if he keeps up the bullshit. He is on the radar of investigators and the walls now have ears (and eyes). It's about time for the McHardlys and the Peckerheads of the gulag to "just do their fucking job". The DOC Tech Services Department has agreed to install an alarm clock in Lt. Dick's Bitch Button Radio so that he can wake up from his daily on shift nap to post up for movement. How considerate of them. We are keeping logs on the abuse, dates, times, persons involved, and the Legislature is now fully aware of the "McHardly" and "Peckerhead" regime. We will report more on Lt. Dick as soon as we get the information. Let's hope his disciplinary hearing calls for his summary execution; they would be doing the world a favor!

More To Come...
