Well here I sit in the dark, all the power has been OFF for about an hour. so I'm sitting up here at the door writing. I'm extremely tired! These morons in cell 2305-06 a 11 and 9 was arguing about the life of some Rapper from 6 PM until after 11 PM. This is hands down, the most retarded, brain dead bunch of idiots, I've ever been around!" Their conversations make morons look like geniuses'. And that's no joke. Never in 25 years have I experienced this much stupidity on one floor.

well power came back on, I started cooking again. wrote 2 notes out to people asking for their assistance trying to get this GED. I'm so damn tired. I've got to do some more writing then work out.

so tired, that working out, is not going to happen today. Did write a few cards to organizations concerning this GED. wasted day, got to lay down,
