- WATER SHORTAGE DEEPENS / UNIT 3-2 to SHARE SHOWERS

Due to extreme drought conditions that seem to be effecting MCI NorfolkWorld/WallyWorld year round the powers-that-be have decided that Unit 3-2 will be a "Test Model" for the sharing of showers by prisoners. The program, entitled "The Sgt. Charles Fillis Memorial Shower Sharing Initiative", will allow men who volunteer to share a shower stall with a partner. PREA concerns aside (as they have always been here at MCI Norfolk) clear curtains will be used to ensure that no games of hide the "Brushy Creek Salami" are played while scrubbing the ole scrotum area. One prisoner, known as Brittany Queers was jubilant over the new program stating, "I'll can now supplement my income by offerer to loufa men's buttockes for a book of forever stamps. The Unit workers were not too happy as they feel "mop up in shower 4" could take on a whole new meaning! Great job NorfolkWorld brain trust!

- EXPANSION OF GOOSE WHISPERER PROGRAM ON THE HORIZON

NorfolkWorld is ahead of it's time when it comes to wildlife management as proven by it's inovative "Goose Whisperer" program. You see mentally challenged prisoners are given jobs dressing up in virtual Halloweem Costumes to chase the plague that is the Canadian Goose from the yards. One member of the NorfolkWorld Administrative Brain Trust was overheard saying, "If Donald Trump is elected he is going to send illegals packing and I am almost certain these Canadian Geese don't have proper green cards." The Food Services Director here, the infamous Green Chicken-Head has plans to make "pate" and "faux graux" out of the Goose Livers if afforded the chance and the NorfolkWorld Industries Program has presented a plan to make goose down pillows the dogs in the NEADS Prorgam will using the bills of the geese to stuff prisoner pillows. The Goose Whisperer program will be expanded and prisoners need to apply through mental health, which is appropraite as they are all quacks over there!

- CULINARY ARTS TO SERVE LOBSTER, SHRIMP AND TENDERLOIN (MAYBE)

In one of the numerous "black ops" endeavors here at NorfolkWorld the Green Chickenhead and the Treasurer's office has joined forces to see to it that layabout guards are fed with top of the line foods as long as the grub is paid for out of the inmate benefit fund or inmate food budget. If they can steal enough soda bottles from the prisoner accounts, or buy the lobster/shrimp/tenderloin on the prisoner food budget dime, then they can allow these plump turnkeys to enjoy some delicacies reminiscent of the old Fillis/Ficco bachanalls that used to hold over in the office of 3-2 (with dancing he-shes and all)! It is all under the old NorfolkWorld motto of: "If we can get away with it, we will do it!"
