I have a case I got convicted for that I never did. But I got
a life sentence, that I now have 24 years flat time did on
I am a prisoner member of the N.L.G. Weinglass Fellowship.
I have read all about you and what a professional you are
at law-criminal defense. I just know IF you would read my
court records you would see how bad of a railroad job I got
the state only had one witness who was in jail with me and
he went and told a lot of lies saying how I told him about
my crime, which I never told him anything. But he lied in order
to get his-self a deal on his own case.

micheli I would tell you more about my case. However, since
this will be out to the public on website I will explain all the
details in a letter of conditional. Also I would like to say
that IF you can't practise law in Texas because of not having
a Texas license, I could send you the paper-work to put it all
together as in a writ and OR motion and return it to me and I
can sign as IF I did it pro-se. I can send it this way OR maybe
you could just send to the court. When you contact me I'll give
you more info.

Sincerely Paul Leone #773267
