

Thank you Ladyla, for your comments on my blog - I will be sending Gail a copy of a legal brief shortly after the new year - I hope she will share it with you and together you can help me reach the court of public opinion with the blatant injustice I have been trying to bring to light all of these years !!! Simply by asking an artificial intelligence program to evaluate and rule on the merits of the brief - one hundred different times - I believe in none of its rulings will it support the judgement imposed on me - that's a one hundred percent certainty on my part and I believe you will agree - once the artificial intelligence program makes one hundred evaluations of the merits of the brief - it will bring into question why the courts and attorney's involved been obstructing justice all these years and been ignoring my pro-se filings outlining the injustice being imposed on me ! The artificial intelligence program has no reason to deny the facts that prove I did not receive a fair and impartial trial - bringing into question the criminal nature / behavior of a faction of Florida's legal system that have been suppressing and oppressing the truth of my innocence !!! I hope you will help Gail to forward a copy of the legal brief to an artificial intelligence program / maybe even two or three different programs asking them to evaluate and rule on the merits of the brief one hundred separate times ... I believe once that is done - it should become news worthy - agree? I look forward to hearing back from you - One Eagle
