

Once again setting at a table in my cell. It's been a couple of days since I last wrote. I guess I've been busy! L.O.L. Actually! there has been more action than what I have been use to over the past 21 month's. I Came from Los Angeles County Jail, where I was fighting a case which went to trial and I was found guilty in about 4 hour's, by the way, the trial lasted about 12 hour's at best! I am appealing the case, and will go as far as I can with it! with a state appointed attorney or pro per. That can take from less to one year to 3-6, or even 10 years before a case gets heard.

For the average person we know nothing about the Law. So in brief there are steps to having a appeal heard. The Frist is the "Count of appeal," Keep this in mind, this is not a new trial, or is it a fact finding mission about your case! It's just to see if the proceeding in the trial Court was "fair" and that the "Law was followed"

An appeal only deals with matters shown in the transcripts, Papers in the trial Court file, and Court reporter's word-for-word record of what happened in the Courtroom. No new witnesses will testify and no new evidence is presented. The Court of Appeal decides whether the trial Court followed the Law. there will be three Judges decide the appeal in my case, the Justices will vote, and 2 of the three agree before the court issue a decision on the appeal.

to make a long story short, after this there are Petition's asking the California Supreme Court to reach it's own decision, and there is federal habeas proceeding to try and exhaust that option. I will keep my Blog Posted! Now you all know how the Appeal process work's. I'm not a Lawyer and know very little about the Law, But i Can honestly say the System is bias and prejudicial for any one who may have had past conviction. Just because someone has been in trouble in the past, dose not make them guilty in any present case they may be fighting. the Law has been changed in so many way's over the year's, that in many case's, all is needed is some one saying and pointing a finger, and with no "DNA" or hard fact's and evidence that is all that is needed to get found guilty.

I Suppose a Public Defender is only doing there job, when representing you. the P.D.'S have there boss's to report to, and the Office of Public Defender Have there Boss's to answer to.

The Attorney General are the Bosses of the district attorney's office Chief, and then there are the D.A.'s — "the People of the State of California", who Prosecute the Defendant. (Accused)

The judges do there job By up holding the Law. making Sure the D.A. and the P.D. are Practicing the Law, and are with in the justice of the Law.

Now, they are all government Job's, in one way or another, by State or federal means.

I would say they all have a good day to day working relationship. With The P.D.'s Case Load being 20 to 40 or even more at any given time, and a budget of only a few Hundred thousands Dollar a year to do investigation, expert, criminal reinactment, and the old fashion study Case Law that Require time to research.

The P.D. get's his Case from his supervisor which delegate it to him who is suppost to be knowedeable in your case!? But meany time a Lawyer is a Lawyer, the same Attorney will represent a Common petty theft, to a Drug Case with .5 gram's of...., Let's say, anything! Pot, Cocaine, Heroin, PCP, meth ect..., and also Burglary to a weapon charge.

The biggest pointe I am trying to make is in meany Case the same P.D. will represent those going to trial for a Rape, or Attempted Murder, or Robbery!

The Last time i was⁴ reading a news paper or watch T.V. There are Lawyer's that Specialize in every kind of case.

How Can the Law that is suppost to protect the ones that can't protect them self's be so passive about P.D.'s not being expert's in the case's thay are trying in Trials!?

It is no secret in the Lawyer's Community that most all P.D.'s are Puppets for the D.A.'s office. Let's face it, millions of dollar and endless resoures of tax payer's money to fight Cases that when 1 or 2 percent do go to trial The poor Little guy once again get's Smashed, not only by the D.A., but by the P.D. office, that make behind the door deal's to trade off's on who thay fill should get a better deal or not.

To this day, I Personally do not know any thing about what kind of motion's or what my P.D. did or did not do for me in my case and Trial! what i do know is i got 82 year's to Life, and i did not kill no one. or as fare as that goes did not do the Crime thay said i did.

what ever Happen to proving a case be-on a resonable doubt. Or is the Jury's at Fault for not Seeing the truth. Can the jury's be convinced by D.A.'s Hypothesis!?. Just because there may be smoke, Dose not mean there is fire!?
