

= SEEKING A LIFE SPONSOR =

I am in need of a life sponsor, please make no mistakes in what I'm asking for. I am a happily married man and am by NO means looking for romance.

I need assistance educationally and financially! I am currently serving 15 years to life and have been in prison for 20+ years. I attend AA, NA, and CGA. I have my GED and several trades. As a Nichiren Buddhist I practice a life of non-violence and need some assistance in my yearning to learn Japanese and Korean.

I'm looking for someone who can help me to sell my art work so I can send money home to my wife so that she can buy a car. I want to enroll in college once the program comes back when I feel like turning to the bottle. I'm looking for someone who can help me realize that I am stronger than that! I want to find someone who can help me become a better man, someone that society wants back in its community.
