

" Power of being conscious & subconscious mind "

Why is it that many individuals prefer to remain in their comfort zone, rather face challenges, nor put their mind on having a clear understanding the extraordinary power goal-achieving wisdom can be illustrated in four aspects) indeed degrees of reality which can be partially evaluated by pure intelligence, growing in knowledge, wisdom, understanding, listening, deep concentration, memorization things.

Indeed why is having discipline, dedication, making sacrifice, achievements, will keep you'll in full control over your life, succeeding the greatest challenge, overall, clearly understanding true existence, enlightenment + growth " Yeah we'd human beings have many lessons to learn, in life, striving and moving towards development and inner growth. For one thing if there were no problems to solve, there would be nothing to build on a foundation.
