

## "Don't Ask, Don't Tell"

I was always told can live your life as you want to. It's your choice we are in the so-called land of the free. Believe it or not Lesbians, Homosexual have a better education IQ in this world. I'm Not being funny but, it's true, just look around at the better jobs. The way a Human Being live his or her Life shouldn't stop their Dreams. Whatever they want to due in Life it should be accomplished. And trust me if you Don't Ask, We want tell. Not to mention we have fought for Gay Rights forever and, it's finally kicking in. I Love it. We are people regardless of how others View (us) people fear things they don't understand. President Barack H. Obama is a understanding man that knows about Life, and the things you just Can't and, Want Change. He for change not trying to change America's people Lifestyle, sex etc. But He is Changing that we should All Have dealing with Life, Race, and sex. After All this is the land of the free. And we Live by the same rules as others in this Country. When it's war against America, Not only Do the Heterosexual sign up for it. Also we do too. When the guns are blasting and, I'm At your side killing the Enemy Do you see me de front. Or Do you see another soldier that war sharing your View and, ready to Die for the American People. When the enemy Have you on the Ground and, one of the gays you talked about come Killing to Help you. Do you not feel hope inside when they reach out their Hand to pull you to your feet? So why should who they Lay down with bother you if they Never Bring it to you. The Homes of same-sex couples are alot more peaceful and, truer then others this Day an Age. yet you'll Rather Children Be adopted by Child Rapes or Abuses. If not that they end up in a Home were the people don't care for them. yet in a same-sex Home, we are not raising our Children to be like us. Because they Was not born with the same feelings As us →

So please change the view for the people. We don't play with children or rap them in anyway. We are people of respect and we uphold the right, so please don't ever tie us in with those type of people. So here I stand with my community until those outside it respect it. But know if you don't ask we want tell. We want tell so don't ask. This will keep us on a respectable level.

Thank-you word's from De'anna Tha' Doll

P.S. I'm open for any opinions and comments.
