Ad Tips & Suggestions

Send **SASE** for **FREE Complete 'Guide to Ad Success'**

• **PHOTO - #1 Tip** - Appearing friendly and approachable is KEY! Statistics show ads with smiling (*teeth showing*) photos receive far more ad hits/visits and responses than those without.

• **AD TEXT - #1 Tip** - Viewers respond to sincere, positive, upbeat ads. Show your wit, sense of humor, or your warm side. Provide significant information to let readers know 'who' you are and what you are about (*your background, hometown, family, hobbies, interests, education, etc.*). What have you done while in prison to better yourself? Ads 'seeking friendship' are more successful than those requesting romance. Describe the type of person you would like to meet, but avoid listing requirements such as beautiful, slim, intelligent, successful, etc. Narrow down who you would like to correspond with *after* you receive responses!

Justice Denied Legal Ads

Helpful Tips Writing Your Legal Ad:

BRIEFLY summarize your case and what you are looking for in terms of assistance (*bulleted points work best*) --readers prefer a short summary of the case details and can ask you to provide additional information when needed. Legal Ad responses are based **solely** on a legal professional or supporter connecting with your particular case, and are not within the control of FBTW.
