

The Truth,

April 30, 2011

Let me tell you about some of the "Foul" things that take place at Florida State Prison F.S.P. That's all it is a Name Nothing more. First off they love to entice the Inmates to combat against one another meaning going around telling other Inmates oh! the Guy in Cell 1125 is a Snitch or they will say He told me He want to Fight you. Straight out Lying. Another thing I can't stand and, it happens Daily here in this Building when it comes time for a Inmate to Attend His Institutional Call-outs on the Wing or off it doesn't matter the Correctional Officers will try to Bribe the Inmate the Inmate with Cigarette's, Chewing Dip Chicken sandwiches From staff (Canteen) Anything not to go. And, majority of the time He'll Fail for it because He is trying to support His bad habit and, it makes their job Easier. They will give you this Contraband today and, get mad at you tomorrow and, come and, kick the cell in your assigned to and, take it all back. Now what Do you call this? I call it Double-Cross on the security behalf. And trust me it goes on A lot Here. It's a constant battle between the Correctional officers and, Inmates in the state of Florida. Another error I want to point out these Correctional staff will Write you a Disciplinary Report (DR) At any given moment You file and, Appeal of the (DR) your Appeal Vanish Now your stuck with the Disciplinary Confinement Time. If your Argument is Dead to the Right they will Find a Way to Detain the Inmate.

The System is set up this way. So my question is this how can I win like that against my "Oppressor's"? ☹
I'm writing you all this because, I have and, still do experience this type of treatment on a Daily Basis inside the Walls of this State Facility. Called F.S.P. A lot of Inmates can't Read Nor Write and, most of them are Afraid to speak about the injustice that's Amongst us each Day but I'm not! I know you all in the outside World are in a High Position to accommodate us in Wicked places like this. We can't Do it alone. All I'm looking For is justice For this injustice.
Well This is My HEART...

Pearl Harbor Group)

April 30, 2011

Being a Connoisseur of History. I am familiar with the sneak attack on The Navy in World War II. It was true one of the best aproced attacks on our country in war. Japan had the jump which they end up getting the shorties end of the stick. This is to open America's eyes to alot causing Her to up grade the systems for those type of planes to never happen again. There were alot of brave men lost their lives.

Which bring me to this Article written dealing with Pearl Harbor Group. I never knew anything about it, but I respect their accomplishments. But I also understand why the Group is going Down in numbers. I mean that was 1941 and Today 2011.

Then when it come to the less money coming, well This Country suffering from a Economy bounce back. Meaning All is slow at this moment, but still The Honor still is being kept With Respect. That Alone is the most beloved thing. Being that so many other Historical Events from the past is forgotten. But Far as the members of the group falling away Human Flesh only last so long before it return back to said. But Their Legacy, Respect, Honor, and accomplishments will live forever in Great Memory and, Hawaii has an still will Honor The Team ... //

"CANDY"

"Poem"

Candy is a sweet Treat.

Which We love to Eat.

Candy is a real delicacy in the South.

And it will melt in our Mouth.

Candy can be given as a Gift.

But the person must be swift.

Candy is used to stimulate mankind.

So We must not be blind.

Candy is made in a soft and, hard form.

And, I passed it all out in the College Dorm.

I Love Candy.

It comes in Handy.

"CANDY" ...
