

5/24/2011

I truly hope that many of you are able to understand my writing because if these over were subject that need to heard from inside this is it! Yesterday the United States Courts ruled that the prison system in Calif. must reduce its prison population! I am currently in Mule Creek and the local news that I watch (FOX40) did one of those join our conversation things and the public has gone hysterical! Oh the flood gates are going to open and there will be 30 to 40 thousand dangerous people set loose! The security as we know it is first and foremost people are released from prison.

everyday throughout one  
of 33 prisons in Calif!

Secondly these are people  
who may have served  
majority of their time  
be it 50% or 80% that's  
due to be released in  
2 years. These will be  
no kids getting out nor  
will there be any seniors.  
This release is to be  
done over the next 2 years  
so if you haven't looked  
into who's being pardoned  
already trust someone  
from inside, those that  
are released under this  
court order, it was their  
time to be released. So  
for Mr. Paul Robins (Fox40)  
before you report and  
sided stories investigate  
the whole story as an un-  
biased journalist.

Randy -
