"STROKE IT"

I want you to put your hands on it!

Treat it as if your a masseuse.

Look at it! Talk to it!

Define how meaningful it is!

How its important, extraordinary, one of a kind,
Make me believe its the best.

The best you've ever had the pleasure of mentioning.

Like its perfect in sequence like Olympic swimming.

To perfect for mixed feelings, nor mixed opinions.

I'm mad when you neglect it, ignore it,

better get act as if its never existed.

I, me, myself, are the starting triggers.

To showing self centeredness, love for my.

The beginning of stroking,

so stroke it! Please

STROKE MY EGO!

I Declare under Perjury This is The Work
of La'ron Philmore. Inspired by Egotistic People. Thank
You For Viewing. Don't Hesitate to Critisize Good &
Bad.
