INSTITUTION COMPLAINT EXAMINER'S REPORT

Inmate Name IRBY, LEON L-AC 7	Institution WCI	Complaint File Number WCI 1015-96
----------------------------------	--------------------	--------------------------------------

Inmate Number 033802	Date Complaint Received 04/04/96
-------------------------	-------------------------------------

Complaint Category: 06 - PERSONAL PHYSICAL CONDITIONS

Complaint Summary :

JW--Inmate Irby claims Inmate [redacted] has been constantly banging on the cell wall and making threats against him.

Persons interviewed and documents relied upon :
Officer [redacted].

Inmate contacted? No

Summary of Facts:

The complainant states that inmate Erving bangs on the wall day and night and hollers out gang slogans and threats to his life. The complainant states that this banging causes psychological and physical pain.

Officer [redacted] was contacted in the Adjustment Center (AC). When asked whether inmate [redacted] does this, Officer [redacted] stated that it has occurred. Officer [redacted] stated that when he is told to stop, he does.

The AC houses inmates who have violated the rules of the institution. These inmates, in some cases, have little to lose by being disruptive while being housed in this setting. While this examiner understands the complainant's dilemma, there is nothing the ICRS can do for the inmate. It should also be noted that the complainant was directed to move to a different cell hall and has subsequently refused.

If the complainant is suffering from psychological and physical pain, he should contact Clinical Services and Health Services.

Resolution/Recommendation: Dismissed

Institution Complaint Examiner's Signature

James [redacted]

Date Signed
