

Hip-Hop Culture

May 25, 2011

This is a way of life for mankind in-general it's been around before, I was born. And it's well respected by those who take part in it. Plus others that understand it. Hip-Hop is known through out the world does everyone except it? No but that don't stop nothing.

The Hip-Hop culture is many different things meaning our cloths, pants, shirts, shoes, etc. Music meaning Rap I got a favorite "Rapper" His Name is Shawn Corey Carter B.K.A. Jay-Z. His music motivates me. It's let's me know I can go on with life.

He's sexy to me. It doesn't matter what happens good or bad. He owns his own clothing line Roca Wear, Cologne 9IX. He has a restaurant up in New York He has a strong business mind.

He's married to Beyonce' it's been over 3 years now No children yet. Jay-Z is from Brooklyn, New York "Marcy Projects". He was underground rapping before hitting the ^{scene} ~~scene~~. In the early "90's" later He formed the Firm with Foxy Brown, Nasir Jones that fell apart due to competing against one another.

Then He hooked up with Damon Dash, and a silent partner to perform Roc-a-fella Records. He brought Partner A board Memphis, Bleek (Homeboy) From New York.

He use to sale illegal Drugs back in the Days. He owns A BIG percentage of New Jersey Mets Basketball TEAM. He's in the process of moving it to Brooklyn, New York.

His New Record Label called "ROC NATION"

He owns a chain of Nightclubs called 40/40. No I don't think Hip-Hop is (DEAD), I think the real people that lived it is (DEAD) the Original Folks that lived in Today's Society. NVER →

The New Generation is still living it as we "speak". They doing it through Fashions, Music, Lifestyles etc. I don't think it will never actually be (DEAD).

It's and, Billion Dollar Corporation that gets strong every year. Plus someone will always be here on Earth to carry it on.

Like, Jay-z, T.I., Busta Rhymes, Gucci Mane, Lil Wayne, Soulja Boy, Rick Ross, Young Jeezy, Nikki Minaj As long As Artists of this nature is out there And theres so many more.

The Hip-Hop Culture will stay **ALIVE**.

I'm open for any ~~opions~~ ^{opinions} and, comments.

Words From,
