One Man financed this trip to Washington, D.C., and One Man said good-bye to his wife and their six children in order to represent them and the millions of other Christian families across the Nation, at the "questionable" event we remember as the day of the Million Man March upon our Nation's Capital, in 1995.

"Questionable", in view of the fact only African-Americans were explicitly the only Americans in this nation persuaded to attend this gathering.

I am a white, 32 year old man, with an average I.Q., and I was overwhelmed by the concern and curiosity this proposed event stirred within me.

With all the famous current events across the Nation recently occurring, i.e.; the so called White Supremacist/Militia Man, Mr. Randy Weaver, and the bombing of the Oklahoma Federal Building, April 19th, and the derailed Amtrak passenger train in Arizona, mysteriously co-signed by a nationally unknown and

unheard of "White Militia" group called the Sons of the Gestapo, it makes you think.

Just these two particular events, and their noted conspicuous classification as White National Terrorist Activities (H.R. 1710 in Committee) deeply trouble me as the tide of events in this country are appearing to look revolutionary (as they also did in the many other countries around the Globe in recent years just before a major World Government intervention or take over occurred).

Number among these Nationally famous events: the incident occurring at Ruby Ridge, with Mr. Randy Weaver and his family. Remember also, Waco, Texas, with Mr. David Koresh, and the many others present at their Constitutionally Legal Christian Community Complex (which the media and Government agencies classify as a "compound"), and you may be inclined to suspect a covert operation in

progress by the powers that be. Directly infecting public opinion regarding white people in general, and the militia groups specifically.

Divide and concur is a military and government strategy as old as the hills, and to me personally, these events when considered collectively; the media promoting suspicion of the whites and militias while in the same time period promoting/acknowledging a Million Black Man March in Washington, are worth thinking about. This should absolutely require my utmost attention, further investigation, and possible intervention. I'm certain you can appreciate the fact of further investigation on my part concerning these suspicious happenings would require a personal fact finding mission far beyond the cloudy and decoyed information our federally mandated and licensed media stations could or would provide.

Common sense declares it quite possible, with all the Black/White race issues bombarding us daily through our television sets across America, that civil unrest (race riots) may be potentially inspired and deceitfully promoted by a government that desires a National State of Emergency such as this in order to impose the Presidential mandates upon our Nation which makes Martial Law seem like child play!

Consider the opportunities this Million Man March could present to anyone interested enough to attend this gathering which would offer first hand experience. Personal interaction and observation by one individual in the midst of one million plus, African/Americans from across the Nation at such a critical time as we now live in. This opportunity to gage

chance too good to pass up.

In order for me to ascertain the absolute truth regarding the reality or falsehood of my personal speculations concerning the racial tension and motivation of a group separating themselves from other Americans in the name of unity. I am fortunate enough to know one precious brother with similar concerns who would finance this mission for the truth, and thus allowed me to personally look into this matter.

Monday morning I arrived at the gathering of one million black men, and I proceeded to walk into the midst of them on the White House lawn, carrying my 5' flag upside down in the symbolic fashion declaring a Nation in distress, with the words printed "United We Stand-Divided We Fall" plainly printed with ink on the last white line of this upside down flag.

It is a magnificent sight to see one million people gathered together, all generally together for the same cause, putting their differences aside in order to accomplish their purpose.

As I stood there on the White House lawn observing history take shape, a couple members of this march movement began to take photographs of me standing there with outstretched arms holding my U.S. flag upside down with United We Stand-Divided We Fall clearly printed for all to see.

Simply being photographed was the full extent of that particular encounter. No comments were made no questions were asked...perhaps what they seen said enough to them.

Approximately an hour later though after relocating to a place 50 yards below the White House steps where foot traffic was very heavy with moving crowds of

personal safety in the event of hostile inquiries as to my purpose there.

Beloved brethren and fellow citizens, the world history books are filled with accounts of individual men independently causing major changes in history. One Man could conceivably have initiated the unifying of American citizens into demanding their rights be honored by a government of tyrants. Of course one man could conceivably have caused what would amount to be the next civil war. It was positively a very eventful day!

I personally, (and unfortunately) independently walked that flag through the crowds from the steps of the White House, to the Washington Monument and back to the steps again in 8 1/2 hours. Less than 10 men of the million plus actually thanked me for being present at the rally. Close to 1,000 of the million confronted me as to whether I supported the march or opposed it. Thousands more throughout the day crowded closer to me waiting for my response. May I mention this could have been quite intimidating to anybody else not as fully committed to the cause as I was.

As a result of my proper and unthreatening response, I imagine that at least 80% of those that heard moved aside willingly, (that decision being influenced though by existing free speech laws and such I'm sure). The other 20% consisted of occasional reporters, TV crew, one Dept. of Justice Public Affairs Officer, and six F.O.I. red bonnet and bow tie Moslems. One very special man who I expect must have found some official type clothing and badges, along with his walkman stereo and headphones which he may have actually thought was a real two-way radio, or maybe

patient on leave; either way, he was the one who often came into the group in order to watch my blind sides while the F.O.I. Moslems excited the group of people questioning my presence, by prohibiting them all from taking my picture or speaking to me (rationally), suggesting to them that I was a C.I.A. "plant" trying to cause friction and failure to the march. Several others in these groups suggested I was white militia. Others suggested I had a bomb and demanded I be searched (unsuccessfully). Others in these groups were simply there to witness what would happen next. A few quietly commented on my courage to actually stand in their midst promoting Unity as citizens and not just as a race.

This is the reason my beloved kinsmen and fellow citizens, why I'm writing this report and sending as many copies as I can gather addresses for of militia men and survivalist who stayed at home, or wherever else they preferred to be other than at the march representing our interest in such a delicate world, with full intentions there be some readers who will publish this for the many newsletter readers out there across this Nation. Internet may be another place to produce this report--feel free to share this report with others as you will.

Pay close attention, our Country and our children's future is in jeopardy! Every American citizen needs to consider all the subtle changes going on in the world, and think about who is going to take this Nation by force (military) if and when civil war between the people is realized. The solution perhaps may be revolution but not between the people of the citizens of our United States. As our Declaration of Independence states, "We hold these truths to be

self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the government. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to effect their Safety and Happiness."

Our children will definitely inherit whatever we decide to leave them. The Holy Bible says in II Chronicles 7:14, "If my people which are called by my name, shall humble themselves and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sin, and will heal their land." This book also has many examples of God making mighty men of battle to those who acknowledge Him.

In closing, I want to suggest that you view and consider a video titled "America Under Siege" by Linda Thompson, (800-749-9939). I am in no way affiliated with the producers of this video and will in no way profit financially by you ordering this tape to share with those you love and respect, and will in the event you cannot afford a new copy, I will send a recorded copy to you simply from my love for the truth and my desire to see a Nation educated above ignorance concerning what we stand to lose and in effect leave for our children to inherit.

Those of you reading this--thank you. Please desire the truth search for it

Please respond to this address if you can possibly explain to me the reason our militia didn't appear to confront the numerous atrocities by the government against the citizens with mass numbers in opposition. Where were you?

## THE MARCH OF OCTOBER 16, 1995

According to the Park Service an estimated 400,000 black men showed up for the "Million Man" march. Remember, nothing is what it seems. What really happened there? Well, over 150,000 thousand registered for a new political party. A new party being sponsored by Farrakhan. A party for all black people. Why? Because they are going to elect Colin Powell for the 1996' Presidency. Who was really behind the "Million Man March" and the new political party? Keep your eye on JESSE JACKSON. Do not be fooled. Jesse Jackson is a One World Order MAIN head. Farrakhan will not be the head, but Jesse Jackson will be the LORD of the movement. The Elitists are using the black and white
