

5-20-11

Greetings:

Well once again I would like to write about something that is very special to me. As you readers know the ones that write these blogs are incarcerated. What you probably don't know or realize is that a lot of us are veterans who served our country one time or another. Now granted not all of us were honorably discharged but a lot of us didn't get dishonorably discharged either.

There is an organization out there called Vietnam Veterans against the War. These people are a group of individuals who take time out of their busy schedules to help people like me and you. They will help us to get our discharges upgraded, and also to file for any VA benefits we might be entitled to.

I for one am very thankful for this organization and all they are doing at this time to help me upgrade by discharge and get my VA Benefits. So with a ~~heart~~ heartfelt thank you Karen and the rest of your staff for everything you are doing, keep up the good work!!
