

Hey, well I'm going to fill you in on the trouble I've been having with the white power gangs. The administration is still refusing to help me, they did a half assed D.P.I.-offender protection investigation - on the 18th and put me back out in GP=GENERAL POPULATION. As soon as the guards left I was attacked, they kicked my ASS and told me next time I wouldn't survive. I was taken to medical where they glued the hole that goes all the way through my lip shut and took X-RAYS of my right waist. The only thing the admin has done since is write me a case for fighting. They don't want to help me because I'm GAY, they're gonna get me killed. If I survive long enough I'm going to file a federal lawsuit for failure to protect. I wish there was a way I could press charges on the GANG members involved. I mean the only reason they are out to get me is because I'm GAY and I'm white. But NO ONE in the state of Texas gives a shit what happens to a GAY PRISONER. I'M ON MY OWN AND IT'S NOT LOOKING GOOD, WISH ME LUCK. YOU ALL TAKE CARE OF YOURSELVES. PEACE & DONNY.

P.S.

I'd write some poetry but I'm not feeling real creative right now..
