

I am a Wiccan here in prison in Tx. I have done 4½ yrs on a 12 yr ag sentence. And I have to say half the time its hell. I have almost lost everyone I have ever loved as I'm setting in a cell. And I did lose the one women I loved more then any thing. But I understand she needed more then a letter and a phone call (LOL). And I'm not going to tell you how I fond God in prison because I'm not looking for him again I'm a Wiccan and always will be. I witting this for as you read this a part of me is free. And for I can tell every one about things you dont hear about on the news like when the guards let a man die And beat a man to death and alot of othere things.

And if there is any thing you all want to know ask and I promise to answer your questions

Joe
