

When it comes to a sexually relationship
it doesn't matter where you get your
appetite, as long as you come home to
eat, its all good.

The Voice of the Past

For me to take from the countless
contradictory experiences I have had and
emphasize only a certain type of experience,
and then install it as a guide for future
action, is not self-trust, but lack of it.
I have never known anyone who had a completely
balanced approach to life. Everyone over-
emphasizes something. Surely I'm not the
exception! Our past self is in the past;
our present self is in the present,
and only in the present can be trusted.
