I Hear on the Radio read in the Newspaper and Magazines Our President B. Obama ain't doing this or that. First off the Economy was in turmoil before He stepped in The White'House which was January 20, 2009.

He's only one Man He can't do it all alone His administration needs to step up to the plate. Where they are? 4 years in office want fix the Economy.

The Republican Party Wants to raise taxes Why? that's insane to me. The Government is Crying broke but, their continuing to build more County Jails/State Prisons to keep people locked up. Now Where is the money coming? from if the Economy is in trouble.

People love to criticize President B. Obama but, What are we doing to make "CHANGE" in The united States of America? ASK yourself that! President B. Obama Has done a great Job In my Eyes. I hope HE gets re-elected in "2012". If Not He's still the MAN.

This is not Racist so don't take it as "such" Alot of People HATE to SEE A Black Man in the White'House "Real Talk". It's not about His performance in there AT ALL.

It brakes my Heart to see people so lost and, Dont Want to Change. It can be done if we come together as A Whole.

President B. Obama Knows His Position and, He stands up for the American "people" just open your eyes.
