# Pg. 1. FOX NEWS GOP DEBATE

So I just got done watching the FOX NEWS GOP debate and I really wish they had more time to speak. But over all, it was OK. Before I go any further, let me state that I know I can't vote because I'm a felon but, some day I'll be able to. I think it's really important for people to understand what's going on in our country and stand up for our freedom and civil liberties and what "We the people" want. America is supposed to be the land of the free, yet we're the most prison populated country in the world!! I find it sad that most people are totally oblivious to what's "really" going on in our country and world. Some people would call me a conspiracy theorist but, I would say, I'm a seeker of truth and to do that you have to be open-minded and willing to hear all sides. I think if the country and world would take a little bit of time to hear "all sides", including conspiracy theory people, and check things out and ask questions, the world would be a much better place because, I don't think we would go for alot of the shit that's going on. I haven't always been into politics and searching for truth and answers to all my questions but, I've had some pretty trippy shit happen to me that kind of made me start. I'll write about some of it soon. I'll lable the posting "MY MYSTERIES". I know most people don't like

PG. 2. FOX. NEWZ. GOP. JEPATE.

being lied to, kept in the dark, or hearded and treated like cattle so, what are we going to do? Cause it is happening to the majority of people on this earth. Back to the debate. I'm an idependent and admit that I was for Obama. But the more I opened myself up to hear from the Republican side and saw how Obama was doing as PRES., the more I started to accept that he sucks. I hope he doesn't get re-elected. I would like to see Ron Paul or Herman Cain as PRES. The other candidates to me seem a little too conservative or kind of fake like most polotitions. But still, I think would all do better than Obama. I think Donald Trump would even do way better than Obama. Real shit though, I know theres alot of shit that goes on behind closed doors with the elites of the world that we don't know about so, I don't fully trust any of the super rich or people in GOV. If anyone wants to talk polotics or share some knowledge with me, feel free to write me. (see "Contact Info.") One more thing. If you watch CNN, or FOX Newz, switch them up every now and then. But know that mainstream media only reports so much. Look up on the Net radio host Michael Savage, Jerry Doyle and a book called "Behold A Pale Horse - by William Cooper. It tripped me out hella! I think the author was even murdered for speaking out about shit.

# CASEY ANTHONY AND WARREN JEFFS

Lucky, lucky bitch! I can't say for sure what she did but, I do think she got away with some evil shit. I told my mom that I thought the state had a weak case against her and sure enough, they found her not guilty. But believe that everything happens for a reason. She might get it worse than going to prison? I doubt she's going to live a "Beautiful life" like her tattoo says.

As for Warren Jeffs. I'm glad to see he got found guilty. I know he knew that what he was doing was wrong. But yet he continued to do it so, I hope he has fun living on protective custody his whole life cause you know he ain't going to make it in general population. I kind of feel sorry for the rest or most of the other people of his sect though because they've been so brain washed and indoctrinated that they have no real understanding of truth or reality.

PG. 1. MUSIC. IM. INTO. AND. WANT. TO. CHECK. OUT.

I used to mainly just listen to rap. But honestly I'm a little burnt out on it. I'm even a rapper myself. I think a lot of the rap today sucks. And I find it hard to like when I don't agree with a lot of what they say or promote. I can't stand over arrogant, super materialistic people so, when I hear rappers rapping over and over again about how money is the most important thing to them or, bragging about all the shit they have and how tough and cool they are, it gets old and annoying pretty quick. But don't get me wrong, I'm sure there's a lot of good rap out there. Lately though I've been listening to a lot of other music. Now I know I've tried to live up to the bad ass, tough guy image in the past, and have but, honestly I'm kind of a softy at heart. I love a lot of oldies in English and Spanish; a lot of 60's, 70's and 80's and 90's stuff. You can catch me listening to the Beatles, Fleet Wood Mac, Stevie Nicks, Sade, Pink Floyd, Black Sabbath-OZZY, My Morning Jacket, Cold Play, James Blunt, Peter, Bjorn and John, Paulo Nuttini, Silver Sun Pickups, Kings of Leon, Peral Jam, ~~the~~ Nirvana, The Cranberries, Sanford and Son, Death Cab for Cutie, Florence and the Machine, and so, so much more! I found this one radio station, KNCW. Net 90.5 FM Walla Walla, WA. and heard a lot of songs that were
