

"SONG & DANCE"

Maybe, I could dance with the conversation,
Giving your face/body/& nature are Rhythm & Blues noting harmony.
Articulant in it's melodicness-Not many!,
Or, none-do you as you do you, all situations--

You make love to letters bestowing lucid kisses of ink
compelling verse upon verse-I'm so lightfooted
I kiss your flower this poem in prayer it's not uprooted!
Poem or poetry or song-I flirt their Ardent wink

Lyrical, contemporary, urban or universal this dance
An Alchemist expression hospitable in it's social
Indifferent to a paradox of Ebony or Ivory-I'd Aerial the vocals
Enwarming notes, jus' maybe you'd fance--
