Theme: Out of Sight - Out of Mind...

Hello World! My Name is Quashon Huskey and I need someone to tell me the significance of the phrase, Out of Sight, Out of Mind? Is it to be taken literally or figuratively? Or even metaphorically? I know first hand that whoever coined those famous words had the left behind on his mind. To be left out in the cold is to be left for dead. No, you say? I beg to differ. Me being behind these walls/gates is the equivalent of being erased from the face of the earth. So, when someone doesn't see you, they tend not to think about you on a day to day basis. Then as time goes on, everybody literally forgets you exist. How is that possible? From the outside looking in, it may not seem that way. But from the INSIDE looking out, it feels that way. The enigma of life is hard enough to grasp, but the concept of Out of Sight - Out of Mind is even more difficult to handle, mainly because from where I sit, it is so true. Everyone who lives wants to be loved by someone. Knowing that no one cares is a detriment to a person's mental capacity. It is very hard for those in my situation to deal with that notion.

So I say all that to say this: If you have someone out of your sight, keep them on your mind. A few kind words does the soul some good and goes a long way.

Feel free to Respond, Comment, or Answer at your wishes. Any questions will be received and read and answered in a timely manner.

Until next time, Love one another as if they have the same mother...
