

H: All you bloggers out there.

Please let me know any new information on what the State of Cal. is doing with the Prison overcrowding.

As for China Prison they are not sending any low level non-violent prisoners back to any County Jails.

Like they are saying in all the news papers.

I hear a lot of talk but little action, so if this so called realignment plan is doing anything to reduce the Inmate population I would like to know.

Thank You God bless
Until next time I'm signing off
