

Something to think about

Part: (2)

By:

"Nasir Wali Muhsin"

"Empty" minds talk people: ("Always gossiping, backbiting and speaking of others business" 😞😞)

"Small" minds talk problems: ("Always crying and whining about \$@%*" that they can't change or that they're not trying to change 😞😞)

Yet "GREAT" minds talk solutions: ("Always talking bout them power moves and getting things done both sufficiently and efficiently they get it done" 😊😊)

Which mind are you??????????

*** Please send your Commits and feelings about the above to me via mail at: Ceso Sprewell-Nasir Wali Muhsin #259325, P.O.Box-9900, Boscobel 53805 and blog them as I'm sure everyone has an opinion about these types of minds.

Added Note

This is my spin off of Part One of something to think about. Both of which hold great value to me as I (HATE) "negativity and poison minded/hearted people". It is this type of negative people who are the cause of bullied kids who end up killing them selves, young women choosing the life of hyper sexuality to make up for the lack of true love, care and warmth that she deserves, it is the cause for many drug addicted people and so on. Let us join hands to stop negativity and produce positivity and togetherness!!
