SIGN ME

The music industry is always in need of a new artist with a new sound that can take the industry on a new ride.

My background in coming from the streets of California, getting involved with the streets, gangs, crimes, prisons, and traveling the country is very real. It is all that I've been through and experienced that is translated in my raps, and R & B.

I write and orchestrated my raps, and songs in a unique way hearing sound and melodies in my mind then blending them all together. "ALL" I need is a opportunity to be heard and what I bring to the table is undeniably raw.

My life is about to change once I leave these prison walls and I want the biggest chance to be centered around what I love to do... "Music".

I'm looking to get signed... "SIGN ME".

Dr. Dre Jay 2 Usher Eminem
