The Struggle We're In, As White Convicts

Note: This is for adults only. It contains ideas that some may find offensive, although I'd no intention of offending anyone. I wrote this at a more anxious time, yet I still believe it honestly reveals how some white prisoners feel if not our true reality. Anyone is welcome to comment on this, regardless of your beliefs or ethnicity.

Greetings & respects to you struggling to preserve and advance the White race behind bars. As a lifer, this struggle is something I cannot escape. Thus I face & think much about it. What follows is a summary of the conclusions I came to while writing a detailed account of my efforts in this struggle, which should help others, particularly the younger convicts who have been misled by enemies & traitors of the White race, realize exactly what the nature of our struggle is & thus be able to achieve victory. My personal details are omitted, but those with experience can supply their own.

1. Prison administrators are immoral & indifferent to our struggle, only concerned with gaining & maintaining power, which is how they rose to their positions. The same is true regarding most prison staff. They do & will sell out white convicts to appease the majority of prisoners who are not white or are traitors to the White race. Thus Coloreds get privileges (e.g. jobs, programs, & services) that Whites are denied.

2. The courts are unfair. For decades they've shown they will oppress Whites in an effort to appease Coloreds, to enforce "equality." Thus Colored convicts are allowed to prevail in lawsuits & obtain "rights" that White convicts are denied. Liberal judges misapply the law, ignore the facts, &/or go against their own prior rulings to justify dismissing White convicts' suits, & do the same to let Colored convicts lead class-action suits & appear as saviors of convicts.

3. So-called "prisoners' rights" orgs (e.g. the A.C.L.U., Prison Focus) & publications (e.g. Prison Legal News) are run by hard-core socialists & anti-White racists. They advocate for & spread propaganda advocating for Colored — mainly Black — power & attacking the White race's needs, usually blatantly. Such orgs will not advocate for avowed white Separatists let alone Supremacists.

4. Particularly because White convicts' families tend to be more law-abiding than families of Coloreds, White convicts tend to have less familial support in their struggle to survive the oppression of power-

hungry prisonrats. Our families tend to assume that the system is "fair" & if we're "good," everything will be fine.

5. In our society as a whole, white people who are conscious of their heritage have long been smeared as evil, "racist," viewed as morally the same as the impostures who claim the name but act shamefully. For this reason, & due to prison rules banning convict organizations, white convicts are obstructed from advocating for themselves. Attempts to do so are fiercely opposed!

6. Within white groups that do form, internal conflicts frequently develop, as members put their quests for power before preserving & promoting their race. Most people in prisons have damaged personalities, so internal problems like this will erupt.

7. Corruption in white orgs exists from the beginning or develops. White groups begin preying on whites instead of educating & enabling them.

8. Colored gangs target white convicts & free people to fuel their genocidal purposes, e.g., by: a) enlisting whites to sell drugs to whites, sometimes creating entire gangs for this purpose; b) snitching on whites, overtly or covertly, to get them put in seg. & out of their way; c) paying other whites with dope or money to attack whites who are struggling to preserve the white race; d) making false claims of discrimination to get staff who aren't sympathetic to their cause fired or intimidated into being sympathetic; e) attacking or harassing white convicts, then, when staff appear, playing the victim role & claiming to be the subject of "hate" crimes, then sue staff &/or press charges on the convict, pressuring the system to oppress the white convict; f) yelling, pounding on walls, or otherwise preventing white convicts from sleeping & being psychologically stable; g) cussing out & exposing themselves to white female staff, trying to appeal to their prurient instincts, sexually degrading them, & demoralizing white males, sometimes succeeding in persuading the women into performing sexual favors, sending them money, smuggling in drugs, being a base for selling drugs into white communities, etc.; h) promoting a worship of material things, so whites overlook racial realities & become willing to sell out their race for personal gain; i) promoting false, idealistic, feel-good ideologies cloaked in religion, hindering whites from recognizing the beauty, brilliance & priority of their race.

Much more could be said & is said in my complete essay. Please let me know if you'd like to see a copy of it. However, it's more important that you consider these ideas, determine their validity, and act accordingly.
