ORIGINAL

Chocolate and Sex

Re-write

I searched but I found only loneliness
I struggled against darkest despair
Like a light I held hope out before me
but it only showed no one was there

In darkness I found life's a struggle
so I struggled against dark despair
like a light I held hope out before me
but it only showed no one was there

Chorus: Love is a fucking myth they teach us
Romance is life's biggest lie
Fuck anyone you can fuck
As often as you can fuck
For soon we're all gonna die

I prayed to the Gods of the Cosmos
I begged to be given just one chance
I swore to do anything that they asked of me
and still I just watched others dance

I prayed to the Gods of the Cosmos
I begged to be given one chance
I swore to do anything they asked me
but my sacrifice was blood on death's lance

Chorus

In the darkness I found life's a struggle
A match against everyone you meet
In madness you give your heart to another
this insures that you soon will be beat

I searched but I found only loneliness
A match against everyone you meet
Out of madness you give your heart to another
Insuring your destiny's bleak

Chorus

Bridge

They promised they would always love me
in oath to ease ~~of~~ all of my pain
but the dagger which they hid behind them
would carve the sanity right outta my brain
Sex is a weapon like no other
Love is a fucking myth they teach us
Take em cum and you'll control their mind & eyes
Romance is life's biggest lie
Grudge fucked, dick whipped or pussy whopped
At least your lust ~~is~~ will be satisfied

V.4

Grudge fucked, dick whipped or pussy whopped
At least your lust is satisfied
Make em cum and you'll control their minds
and eyes
Romance is life's biggest lie
Sex is a weapon like no other
It has no shape and shows no color

Bridge

They promised they would always love me
an oath to ease my pain
but the dagger they hid behind their back
would carve the sanity right outta my brain
