

"Unity"

By Bro. Reggie West

As the blackness of racism unfolds  
The whiteness of oppression unfolds.  
A cry goes: For vengeance I'm told...

They... are white including the poor  
I see them poison to kill all more.  
Uprising hatred dismantles our con-

Our core principles long forgotten plus  
Loyalty, honesty, sincerity and trust.  
Amongst ourselves. We fight in ignorance and quest!

Let them beat us blindly and know  
Our education truly needs to grow.  
So, let's practice subjugation to show

That when subjugation policies in place  
Political leaders were not it's disgrace;  
Will not unite by capitalism. Will not unite to save lives!

For they are a reality when I call "Forest!"  
He who neighbors his own master's house  
Hidden quietly as the typical "church mouse".

It's like foreign government policy changes...  
Development in America doesn't bring...  
Will it? It doesn't bring anything!

Except adversity to those who want to achieve  
achieve freedom from oppression and believe  
Believe there's still something left to achieve!

Between you and me the bi-racial minority

Taking a stand against our forced inferiority  
we can fight; fight as one people in concordance!

And be one with standing long we stand  
Resisting to name one Negro man,  
And taking not his oppressive demand!

(Voice Intelligent) So separate the science of mind  
from their alliance of fascist kind  
And leave no - leave no minority behind.

"A Unity as pure as, *espero*!"  
Brothers and Sisters alike ... you and I  
Can make such a change? If only we'll try ...  
... Come together, move together ... *Unity!*
