

"The time has come"

*Now comes the time ladies and gentlemen where we are in a "state of emergency", all races, nations, and generations, so now comes a time where we need to **wake up and realize** that now comes a time where we need to **"Get on something and get off nothing"**. Whatever it may be that we get on just be sure that it aint **"nothing"**!!!! Get off **NOTHING** and get on **SOMETHING!!!** And let that something be positive, productive, healing, betterment and contributing to a cause grater then our own. Let it be about **"humanitarianism and egalitarianism"** becuz **something** is always better then **nothing**.....True story.....*

"Words of wisdom"
