Prometheus Writes! Those who aren't familiar with the myth, an eagle eats Prometheus's liver because he violated Zeus's command not to give fire to man, fire & it's technology. A.k.a., knowledge.

Read my intro to this blog & you'll understand better what I'm about.
Some corrections:

in my note to "Love Hurts," the drawing of the green-eyed vampiress, I erred in saying (if I did) that Lucky Luciano's moll was my muse. It was the moll of Bugsy Segal, a "classic" Hollywood-area gangster that I based that sketch off of.

A ways back I promised a longer piece on insanity in prison, which I am working on. But, as BTB warned me, people reading blogs tend to ignore longer pieces. For this reason & because the events are fresh in my psyche, I'm giving you all these two short pieces. Please let me know if any of you are interested in reading the longer, more meticulously prepared pieces) I'm working on concerning "seg-psychosis" & psychological abuses.

Don't forget to read my earlier posts! Promise you'll dig 'em!

Don't forget to tell your friends, lovers, loved ones, & paraplegics (they can't run off!) to wash their noodles with this blog!

And, remember,

If you don't taste what I'm saying, wash the wax out of your eyeballs and feel more carefully!
