

BLACK CONGRESS

I've been searching for Black Congress
A place to discard my people's sleep so we merely rest
On the lookout for unremote controlled Senators
Uncut and uncensored DuBois-like orators
Urban lawyers of diligence and loyal
Black women bearing the beauty of the Ashanti tribe's Royal
I seek African Tribe Administration
Authentic Malcolm-X illustrations
While constructing the next great organization for solutions

Today mothers are fathers for Father's Day
Many grandmothers and great grandmothers are mothers for Mother's Day
Too many sisters care less of their Sistah lost -
A Brother in conscious that being a brother bears no cost!
Since slavery created an empire Labor Day should be African-American's year
Judicial tricks and no government treats has every day hollow in a dare
Minus Thanks for unwanted Givings: murder, rape, infiltration and beatings
Jesus was a Black man, if the world acknowledged Blacks would Christmas feast
I've been searching, and my searching lead to demolition
Then to skilled Rebuilding for Revolution
