Chorus:
And I lay here
All alone
Desolate
Tired and cold
Got no money
Got no home
Got no baby
Ain't got no love
To call my own

Verse:
She got me running from my anger
Running from the law
Running from myself
And every wicked thing I saw
Got to keep on running
Can't stay here for long
Got to keep on moving
Till the pain inside is gone

(Chorus)

Verse:
I left her in her lover's arms
Lying in that bed
I put a bullet in her back
Another in his head
I fled into the night time
Can't go back no more
The sky's become my roof
And, Lord, the streets are now my floor

(Chorus)

Verse:
Father please forgive me for
The evil I have done
I know I don't deserve to see
The rising of the sun
I pray for your forgiveness
For this unholy sin
But if I had another chance
I'd shoot 'em both again

(Chorus out)
