

Hello!

15 April 12

From
Matthew Jankowicz

I need your help & advice. If there are any doctors out there - can you please help. The doctors here at my prison are worthless - they don't help me at all. I have a severe problem with my left knee & leg. I am having pain in my left knee 24/7. I can't run & have a real hard time walking - each step I take is with severe pain & I walk with a limp. Also all my muscles in my left leg from my waist down (my left butt, thigh & calf muscles) are getting smaller & smaller each week - even though I exercise my left leg almost every day to get my left leg muscles bigger & stronger. I've been a weight lifter my whole life - so I know how to grow my muscles.

Right now my left leg muscles are 50% ($\frac{1}{2}$ half) the size of my right leg muscles. Some inmates think I might have polio. One inmate said his father had a similar condition & said it was some form of bone disease (which I can't spell or pronounce :). If there are any doctors or anyone else that can let me know what's wrong with me & can give me any advice how I can get better - please write me & let me know. I'll deeply appreciate it with all my heart & soul. :
My prayers are with you all. God Bless you All. :)
