

"Pain"

Pain is a serious thing.
it's something life will bring.
Pain can cause us madness
and, in the end leads to sadness.
Pain is so true.
how come it leaves man blue?
Pain is a authentic deal.
but, in time it can heal.
Pain does turn into sorrow.
where would that take me tomorrow?
Pain is not a game.
but, who can you blame?
Pain never feels good.
So get that understood.
