

The Return of Humanity

magnetic genetics, my physical form
reborn in your mental
the problematic solver
strikes my evolver
with unlimited potentials

My skin black like spaces
Cause I'm the current traces
of this whole grand atmosphere
there ain't no soul on earth, or vows worth
to overthrow hold no fears

Talon and Mercellous now
put the pedal to the cushion shakum
Krylon Cans is vapors when I'm pushin Macon
Cardboard boxes got my back
Cipher spitin' under hip hop tracks
in lyrical combat

Confusionless, bioingos' unspoken
religious incisions of prisons
they got us all choked
Systematic, anti-unity dog is mad at me
because I levitate through gravity

assume the B boy stance
against Man the beast killin' no earth
them doing it, us watching them
what's worst, but first, the past
connect the facts, it don't get much clearer
So if you want to see the future
look in the mirror and say
This is The Return of Humanity

Outta Site Outta Mind

There was a time when there was only us
we only comprehended love and trust
Now I'm somewhere you'll never know
To you I'm here today, gone tomorrow

Mad as hell and I can't believe it
You said you'd always be righter I've been deceived again
And now I'm somewhere you'll never know
To you I'm here today, gone tomorrow

I am not here, believe I've slipped away
This revolution will not be televised
because it's going down right here in this cage
I'm climbing high somewhere you'll never know
This is my time, so free, I had to go

Out of your memory
You forgot about me
Outta site outta mind, yeah
because you forgot me
System is killing me
with this death penalty
Outta site outta mind, yeah
because you forgot me

NO TURNING BACK

Many times before this
I've stressed I've felt my best was kinda short
Now I'm fleeing this attack
And I'm never, never, ever turning back

I overstand what you might think, yeah
Your mind can't interrupt mine
Cause what I be thinking
Death I still attack
Just accept that now I'm gone
And there's no turning back

Cause when it comes down to the come down
The death squad will only find these clothes
It ain't no satisfaction guaranteed
I just don't believe in being told
told how to live, told when and why to die
told what's the most low
told who's the most high

So tell my mama when I'm gone I'm gone
NO TURNING BACK
Somebody tell my Mama when I'm gone I'm gone
NO TURNING BACK

(In memory of all death row suicide victims)

Epitome of Punishment

Here I am, very far
Needles near my veins and arms
Because I strived to be some one
Now they won't let me see no one

In tragedy, I plant my feet
My life is almost lost and long gone
System take my life away
And it won't be long

Now will I dance in the doom
Will Satan have an upper room
How could a brother be so strong
Will dying kind of last too long

Can't go to sleep, can't feel my feet
I'm feeling kinda slipped away yeah
Dint nothing right about this wrong
And it won't be long

And if I get the chance to sing one more song
I'm going to kick no turning back all night long
I'm going to sing as long as I can still breathe
Commence the time, Trauma, death penalty

Epitome of punishment - Take my life away
Epitome of punishment - driving me insane
Epitome of punishment - Will it be too late
Epitome of punishment - How long will I have to wait

Death Penalty

What am I going to do
What am I going to say
Where am I going to go
Somebody tell me which way

What on earth is up
Tell me what's it going to be
Tell me how am I going to trust
A god I can't see

I'm not afraid to die,
Dear mama please don't even cry
My mind's almost gone
So why now ask why

They're trying to break me off
Break off my inner-spirit too
And for all the things I lost
Refuse to turn and curse you

Because I have done no wrong
and my innocence seems all gone
Now this world is killing me
Now everybody seeks my death

Death penalty
What's this you seek of me, my death
Death penalty
You've got your nerve to seek, my death
Death penalty

IT NEVER HAPPEND

I've always wanted
to be your everything
Did all I could do
to be there for you
Things turned up cold
and I left you all alone
needing to see someone
you can count on
Now your counting days are gone

A victim of circumstances
well, we could use that excuse
and without a choice of chances
what did we have to lose
Now just think about it
Maybe we did this all to ourselves
Now you don't have me
and God knows
I don't have nobody else

It never happend
None of the things that we had plained
where did our love go
Sometimes I can't understand
It never happend
Because our eyes were closed too tight
It never happend
Because it just wasn't right

XZV81

One Day

I'm a good man
with a good heart
don't ever mean to hurt nobody
I'll be a good friend
straight from Junpstar
and I even care about this whole society

I strive
to win yeah
you know sometimes winning
just means putting on a smile
so I'm pressing on
to the very end yeah
because I plan to finish
this whole life thing in crime style

But sometimes
I think about this strange reality
on how they try
to keep our people down so long
and then you say
this is the land of opportunity
but your ways
and your actions
tell me somethings going wrong

One day the rest of you is gonna see
today will be turned into history
one day this will be all over
one day

XZYZST

I'm Calling

These four walls
are driving me crazy
and I need a phone call
so I can talk to my baby

Yeah it's been so long
since we last wrote
and it's been far too long
since we last spoke

I'm only allowed 20 minutes on the phone
and baby my time is almost finished
please come on and pick up the phone

Can you tell me
where could my baby be
probably not home
or sound asleep
I'm losing my mind
left without a choice
cause all I wanna do
is hear my baby's voice

I'm calling on the phone and I can't get through
cause all I wanna do is talk to you
I'm calling, Baby I'm calling

Keep This With You

You knew I had to go, but listen
Here's a little something I had to give to you
I wanted to leave you here knowing
that deep in my heart
This love is pure and true

There is no time
There is no space
That will ever be able
to separate this bond, this love

And if you ever
find yourself feeling lonely
Just look up cause I'm with the stars above
You never have to go, Loveless
So don't you ever let the thought
Roam through your mind
Cause I'll be there for you, always
Just keep my love with you, all the time

Keep this with you
wherever you go
Stitch my love in your heart
Keep this with you
hold on to my love
everyday were apart

Stayed Down

They used my name
in all the wrong ways
faced upside down
all over town
and then wrote me off
as if I was guilty
Never attempted to make innocents make sounds

You know I've said things
I didn't mean
You know hot pressure bust a pipe
so much was going on inside
The few I loved
Slowly went too steep
all alone nobody here but me

But you stayed down
by my side always
all I hoped for
I meditated for
Round and round
holding on to memories
impossible without you

You stayed down yes you did
Stayed down with me
all the way down
Stayed down with me
You stayed down
Stayed down with me
all the way down
Stayed down with me
Stayed down

All NIGHT ON ME

You can ride
Just as long as you please yeah
it's your time
to get as much as you need and
I'll be your fantasy
That's the kind of thing
I'm looking for

You can kiss me
anywhere you want to yeah
Kinda freaky
baby could this be you
I'll be your everything
That's the kind of thing
I'm looking for

Baby we can take a swing through pleasure
NOBODY HAS TO KNOW
Baby we can dip and slide together
that's the only thing
I'm looking for

And I'm looking for someone that'll love me
all night on me
And I'm looking for someone that wants to be
all night on me
And I'm looking for someone on a fantasy
all night on me, all night on me

XZY28T

Trance of you

I cant wait to see you again
cant wait to embrace you to feel your hands
Cause the warmth of your energy
stimulates inside of me
Im in a trance of you, a trance of you
Im in your trance

Now if the sun wont shine
and even if the moon refuse to come out at night
It dont make no nevermind
Because I have you in my life
Im in a trance of you, a trance of you
Im in your trance

Dont think about it on my own
These awakelike dreams are simply out of control
I might be kind of, mentally crazy given a chance
Im in a trance of you, a trance of you
Im in your trance

In Love

This very part of me is true
and you don't have to worry babe
Cause I'm in love with you
You make my heart flow
at a tempo unheard of
and there's no need for guessing baby
because I'm in love

And you bring the sunshine
my everyday requires
I'm talking about a heart condition baby
above everyone of my desires
You make my heart flow
at a tempo unheard of
and there's no doubt in my mind
that I'm in love

There is no one else please be my baby
nobody sets me off
then when times get sensitive
baby your name I have to call
and if everyone would mind their business
leave things to god above
let's size these rings
and let's be married
because I'm in love

I'm in love
with you and baby I'll tell the world
now you make me
feel so good
So come and baby and share my world
because I'm in love, with you.

XZY28T

The Heart

I chose this life because I wanted to
because I had a calling straight from you
like from the start our hearts they hit it off
been friends ever since all and for all

I miss you when you're far away from me
because it feels kind of strange far from complete

I can't imagine living life without your love
a love I've never felt before
kind of special? needing more
we'll be together until we just can't live anymore
from me this love to you for sure

straight from the heart
right from the start
it's you I need
love's guaranteed
straight from the heart

Xzyzt

You

I'm ready to start this thing over
One on one and everything now we're both older
it's on, so much I want you to see
and I don't see nothing wrong
just as long as you're here with me

I had my plenty share of life and times
But what I've never had was someone I could call mine
For me, now all I ever want to see is you
Because you make life so easy

You
You're all I want
And you're all I need
I want you to see
All I need is you
To start again

XZY18T

Wish

Tell me how you feel

Correct me if I'm wrong

Now don't you wish that you could still

hold me in your arms

Do you wish upon a star

Baby no matter where we are

Do you still care

You wish I was there

You know I feel you crying out, to me

And I'll erase your every doubt

Just as soon as I get free

Do you wish upon a star

Baby no matter where we are

Do you still care

You wish I was there

Wish you feel me like you use to

Do what you will

Do anything you want to do

So tell me you love me

And that we make the perfect pair

And you still care

You wish I was there

My World

Your fantasy
is everything I want to be
So come and let me show you
there is such a thing called childhood

I love you
and my love is everything you need
now come and let me love you
inspire me with you wanting me

I just want to share everything that I am
and here by your side is where I want to stand
Come share my world
I welcome you to my everything
Come share my world
escape to this thing called ecstasy

Sweet Turæ

all alone

gazing about this jail cell window

it's kind of cold

wishing I can be there with you

close my eyes

and try to imagine that I see you

then I cry

It's at my soul, yeah yeah

I wanna hold you near god Sunlight

this lonely road

is a long one in my life

it never seems closer

to the day when I will see you

then I cry

Sweet Turæ

May god's Sunshine down on you

Sweet Turæ

and may you always know the truth

Sweet Turæ

Know that your Daddy loves you

It's Alright

You can do
anything to me
So let me tell you
this is how it's going to be

There will be
no more crying from these eyes
There will be
no more deep pain inside

I've moved on
to another phase in time
and there's a lot of things
I've left behind

So ready up
for my second coming
Strike light it up
Gonna keep
Gonna keep on

Cause it's alright
because I found someone who loves me
it's alright
and there is no one above us
it's alright
and you know we got it gonna on
it's alright

One June

From out of somewhere, known as everywhere
You suddenly appear to represent a greater part of me
Many things and experiences have shaped my character to
make me what I am, You single handedly are the
reason for who I am. You powerful action based
entity, You taught me that talk and material
trash was cheap, You taught me how not to be
mislead by the entertainers of confusion and the
actors staging love.

You are the consolidator of my internal and external
so that every point of this star is directed in
all directions, surrounding me, holding me, teaching
me, caring, protecting, building all of us as you
engulf the world with your very essence.

Your eyes have seen the beginning, they view
every moment and gaze beyond the site of
the future. I will celebrate this day until
forever is no more. One Heart, One Mind, one
life, one love, one nano-second at a time,
one June, because of You, One June.
