

Hi guys at between the bars just to let you no how it is with the phone situation here, MCI has the contract with the state of California and its not good. myself and most others here that want to call family and friends have to put up a fifty dollar deposit before we can even make a call out and betaf the way the economy is its hard for most of ~~us~~ our families to come esp with that amount of money on top of the price of a phone call, so most of us do without calling or people.
