

"PhoneJustice"

October 2007 Father died. He had struggled financially prior to death paying high rates from correctional institutions receiving collect telephone calls.

Father was the only person assisting me to prove factual innocence to overturn 35 year miscarriage of justice.

Am I able to reach out by calling toll free #s from WSPF speaking with non-profit organizations for legal aid? No

I am not connected with anyone from society willing to champion against injustice of my wrongful imprisonment.

Family abandoned because unbalanced field, doesn't want to face same financial burden of collect call phone bill. The battlefields clearly slanted to favor the States interest, telecorporation executives

Intellectually from their perspective, easily they exploit the impoverished inmates, family via social/economical, educational oppressive controls which are in place denying full, equal access.

The game is sophisticated. Some self serving legislators statutorily side policy with telecommunication giants lobbyist due to past, present, future fundraising efforts at the citizenry expense.

He whom controls the purse wields the power.
The President's The Sword, The Judiciary The Shield,
Congress controls The Purse.

For billing purposes Congress, Dept. of Corrections
& telecommunication moguls enter into strange bedfellows
contracts where percentage of profits awarded to State
DOCs based on inmates making collect calls. Truly is
designed as revenue stream incentive to redistribute
wealth from families of inmates the middle class ones
labeled as 99 percenters flowing upstream in the guise
of capitalism to elitist 1 percenters.

Economically this severs ties of family members,
inmates telephonically, deny inmates full participation
excuse me, denying inmates full participation in social
norms.

With Government officials blinded by materialism,
favoritism, & nepotism. State Dept. of Corrections, & The
telecommunication conglomerates self regulate collect
call phone rate increases within prison system victimizing
repetitiously. 1 percenters.

Please en masse grassroots movement. Remedy
what ails inmates. Have you watched "Secret Millionaire"
on ABC? Philanthropy, & Altruism heals.
