

COURT OF PUBLIC OPINION VOLUNTEERS NEEDED

I must remain focused on using this blog to stimulate the influence needed to help turn my vindication into reality. Once more, the easiest way to correct the miscarriage of justice I suffer, would be to confront the five trial level attorneys with the favorable evidence that was withheld from them. When questioned, each of the five trial level attorneys will have to admit, the evidence as given to them pointed, to me being overwhelmingly guilty of murder. They will also have to admit, my insistence of being innocent in light of the overwhelming evidence toward guilt came across as being irrational on my part. Since, it did not allow for the argument of guilt to a lesser degree. Alright let's begin to review the evidence these attorneys were misled into believing was overwhelming as to guilt. I was being told: Four people positively identified me as the person they seen commit the murder - The victims blood was found on my person - Two people, a couple who were roommates of the victim said I told them I committed the murder, and asked them to provide me with an alibi. Again, my only defense to dispute what was represented as overwhelming evidence as to guilt, was to remain adamant that none of the evidence was true. All five trial level attorneys will have to confirm this as I was labeled a problem client, because I would not admit to the evidence being overwhelming as to guilt. These five attorneys will also have to admit that after I was convicted, favorable evidence to dispute the evidence contrived to convict me began to surface. Evidence that supports my innocence and shows I did not receive a fair and impartial trial. As the favorable evidence was purposely withheld by two police detectives in order to obtain a conviction by any means possible. I

would appreciate each reader volunteering to sit on this court of public opinion, to question why these five attorneys have not been compelled to come forward to address the evidence that vindicates me!?! Please help me turn this court of public opinion into the influence needed to bring these five attorneys forward. My next entry will expound further upon the favorable evidence, etc... Thank you, for reading my blog - Please post your comments, and questions - Also feel free to contact me directly to voice your support.

Respectfully,

Milw Rose
