

Body Talk...

Body Talk is a Song about body language. It's a song telling a story about meeting a female in the club, no words being spoken but we still manage to get our points across.

Chorus 2x I can see it in ya eyes, that you want me
And ya body is telling me, ya lonely
I can see it when you look at me, and when ya walk
I aint conceited, I'm just listening to ya body talk

verse Two: Seems like ya body-language, is calling me out
Got me intrigued by ya moves, I wanna see what you bout
With my eyes I done undressed you, a thousand times
Way my body responding, I'm sure you can read my mind
Cause I'm feeling like T-Pain, baby girl I'm sprung
And in my mind I'm trying to figure out, where the hell you come from
Cause the way you dip it low, and pick it up slow
Got my heart doing backflips, and wanting you more
And I can see it in ya eyes, that you want me
So as my civic duty, I can't leave you lonely
Cause you know my intentions, ya body's got my attention
My Soldier's at full attention, so baby I'm on a mission
No the smirk on ya face, is saying make ya move
But I'm feeling like Ludacris, cause when I move you move...
