

Amc 2012

my name is Robert Hartman
im a 27 year old white male, i've
been locked up since Oct 20, 2007
in IL. Since being locked up
i've took a few college classes
and i've worked the whole time,
i've never got in any trouble and
i've done everything I can to better
my self.

Now with that said my out date
should be changing in a big way
Sometime soon, I can't go in to details
because my case is still in court,
my reason for telling you this is because
if they let me out ~~tomorrow~~ tomorrow
since I have no family, at best I would
go to a half way house with no money
and no outside support, to say the
least I need help and have very few
if any places or people to get it from,
but its not only me theres tons of
other men & woman being released back
in to a world where we can't get a job
and are treated as if we're worth
nothing.
