

50 Shades of Grey

I've seen this book call "50 Shades of Grey" all over the news, talk shows and various media outlets. It appears the author has introduced eroticism sexual submissiveness in a way that has captured the interest of many people.

I haven't read the book myself but from looking at the media reaction it's one I'll try to get soon. I definitely think that given the nature of the book it's something I be interested in because I've always had an open mind to the various ~~own~~ aspect of sexuality. Sex is a truly beautiful thing with the right woman.

For those that have read the book

<http://betweenthebars.org/blogs/2042/>

I'd love to hear your personal thoughts, views, and opinions on it. I also have these questions?

- (1) Did reading the book open your mind to various aspects of sexual expression?
- (2) Will you read other books by the Author?
- (3) Have you read books with similar content?

Hopefully I'll hear from you soon. In the meantime take care.
