

## AMC 2012

"Most Pressing issues that the network should focus on"

- 1) charging prisoners money that there loved ones sent them, for Physical health care.
- 2) Unjustly incarceration by state Courts, especially in Texas.
- 3) Better food, health care, Better Doctors, Better clothing, Better mental health.
- 4) Overhaul the unjustified Court systems Wasting societies tax money to ~~do~~ — incarcerate innocent People like me.
- 5) change Laws in state and Federal — Congress to better access to Civil rights violations by prison Guards

AMC2012

6.) Focus on Better treatment of Prisoners, and requiring Prison Guards and other Prison staff members to Respect all Prisoners,

7.) Cut down on abusing prisoners by using excessive use of force,

"support I need that I'm not Getting",

→ The support that I mainly need is Criminal legal assistance due to being non-schooled in Law. I was rail-Roaded and not given my due Process rights nor the right to Call a witness to testify for me in my behalf.

AMC2012

IF I would've been given them Rights, (due Process of Law and the right to call a witness) I could've showed my innocence through my witness testimony, but the state of Texas, had my witness incarcerated at the time of my trial and did not bring her forth to testify for me.

I am one of many illegally charged with a crime I did not commit.

May God be with you all in  
the struggle

Sincerely,
