

AMC 2012.

for me the importation  
issue's are.

1. High ~~cost~~ cost of phone access.
2. Mental health care.
3. and employment.

The high cost of phone access  
has made almost impossible  
to stay in contact with  
my family.

The mental health is not  
does not focus on all problems  
Problems of mental health issues.

The employment opportunities  
are limited and because  
of budget cuts there are  
no vocational training  
opportunities.

Organizations should use mass  
media to better educate  
the public so the fact  
that inmates will one  
day be let go.

and if the inmates are  
and if the inmates are  
made to look like animals  
it will make it difficult.

to migrate back into society  
That's not good for society or  
incarcerate.

There should be more  
work to support inmate  
family interaction.

Because family is the  
Best option so keep the  
inmate from reoffending  
and justice organizations should  
advocate for law that  
stress rehabilitation over  
incarceration.

As that is a cheaper way  
to prevent future crime.

Thank you  
Steve Johnson
