

(AMC 2012)

ATTENTION - PLEASE

Thank you - Between the Bars - for giving me this opportunity to participate in this blog post for Nation Inside: Communication Strategies Against Mass Incarceration. For someone like myself who has spent nearly two-thirds of my 62 year old life incarcerated - with the past thirty years - falsely incarcerated on Florida's death row. I truly do appreciate being given a platform to represent myself on the Allied Media Conference campaign page. I first wish to express my personal gratitude to everyone attending this conference, and next invite you to become a juror on the court of public opinion in my case. I need your help and support to weigh the evidence my case presents in cracking open a can of worms to reveal a criminal enterprise of racketeering operating within Florida's legal community. Who make their living profiteering off mass incarceration and the \$1 million dollar capital punishment scheme they share a vested interest in protecting: to the extent of executing the innocent. With your support, Florida's barbaric use of the death penalty will come to an abrupt end, along with opening doors to national abolition. While also drawing attention to the atrocities associated with the corrupt industry profiteering off mass incarceration. Please visit my blog - I welcome, and encourage your participation.
