1) They say you are free ... but, if they need to tell you! What Uhuru is ... then you certainly are not. There is a thin line between dreams and illusions. Both can be pimped against you.

### SLAVERY IN ONE OF IT'S MANY NAMES.

2) Freedom, sharecropper, 1994 pill popper. Jim Crow chaser, minuteman hostage taker! Bell of Liberty daze and amaze the crowd. Slide into their mist, beguise them in the abyss! While, all the world arrest in its glitzs.

### SLAVERY IN ONE OF ITS MANY NAMES

3) "Unless you have been duly convicted", slavery shall be abolished, reads that 13<sup>th</sup> Amendment. So duly convicted the south perfected their economic trade. And the North assisted their aid. Arrest and falsely accuse the innocent with their black codes and Hate Law. Slavery by another name and effect chain ... called gang.

### SLAVERY IN ITS MANY NAMES

4) Game changer ... when, no longer do they need to frame and steal you. Now they only have to let the residual effects – affects of the past to free radicalize the nonce. So that my own faults and mistakes of tracing, chasing, tracting and trekking a laced and stacked American dream. Hoodwick! Me to forget my "physical freedom" for the mind never truly was !!! For the chains and images of residual psychological slavery was already free radicalized my sense of true self and collective identity.

And that's American slavery by another name and at it's best.
